Vinesh	Thamid	Han	Rayan
5 pm to 11 pm	9 pm 2 am	7 pm to 8 pm	5 pm to 6 pm
5 pm to 11 pm	8 pm 4 am		5 pm to 6 pm
5 pm to 1 am	8 pm 3 am		5 pm to 6 pm
6 pm to 12 am	8 pm 3 am	7 pm to 11 pm	5 pm to 6 pm

Thamid
Create static results section layout - Recommended departure time placeholder
Create static results section layout - Time breakdown placeholders
Apply consistent styling - Typography
Apply consistent styling - Spacing and layout alignment
Apply consistent styling - Button and input styling

Vinesh
Deployed the backend as a WAR file and verified correct servlet mappings to resolve multiple 404 errors
Implemented CORS handling to allow requests from the local frontend development server
Replaced the frontend mock address suggestion logic with a real fetch call to the backend API
Updated frontend state handling to work with live address results instead of static date
Debugged and fixed frontend issues including fetch errors, CORS conflicts, invalid returns, and React list key warnings

Han
Assisted with frontend and backend integration
Worked on connecting weather API

<u>Rayan</u>

Organized Sprints

Created and assigned tasks

Created Burndown Charts

Tracked tasks worked on and hours clocked

Tracked in progress and completed tasks
